

# Alejo Lacroix

## Full Stack Developer

I am a passionate Front-End developer with experience in using technologies such as React, JavaScript, HTML, and CSS. I enjoy creating attractive and functional user interfaces, and I have the ability to work in collaborative teams to take projects from the concept stage to final implementation.

## Work Experience

---

### IT Intern - ANEP

Current Position ( 3 meses )

- Provide technical support for primary education and interact with teachers in the maintenance and configuration of equipment, including desktop PCs, mini PCs, and laptops.
- Acquire knowledge in equipment repair, Linux, Windows, terminal commands, and networking skills.
- Face challenges when providing remote assistance to clients (teachers of schools) and demonstrate initiative in addressing tasks and learning.

## Academic History

---

### Higher School of Computer Science

2019 - 2022

- I improved coding skills and teamwork abilities by collaborating on a project with a team of developers.
- I contributed to the development of a sports results application using MySQL (Workbench), C#, and Visual Studio technologies.

### Coursera IBM (2023):

#### IBM Full Stack Software Developer (specialization)

**Skills:** Security web, Cloud, HTML, CSS, JavaScript, GitHub, Git, Node.js, React.js, Python, SQL, NoSQL, Bootstrap, Serverless, container, Docker

### Coursera LearnQuest (2023):

#### Scrum Master Certification (specialization)

**Skills:** Scrum, agile, sprint.

## **ChatGPT Prompt Engineering para desarrolladores (OpenAI) 2023:**

Using prompts to generate text, translate languages, write creative content, and create NLP applications using ChatGPT.

## **“Jóvenes a programar” (course Ceibal)**

**2022 - 2023**

- I gained valuable experience in web development (HTML, CSS, JavaScript) and skills in backend development with Node.js, Express, and JSON files.
- I participated in English classes with native teachers, achieving a B1 level qualification that enables me to have basic communication skills.
