Alejo Lacroix

Web Developer

I have more than two years of training in programming and web development through personal practical projects. I participated in group work in the course "Young people to program" and I knew how to communicate with my classmates.

Academic qualifications

Escuela superior de informática   2019 - 2022

- As part of a collaborative team, contribute to the development of a state-of-the-art **CRUD** sports results application using **SQL** (**Workbench**), **C#** and **Visual Studio** technologies.
- We also work with methodologies and use organization programs such as **Trello** and **Notion**.

Coursera
